TEST CASES

Create 7 Test Cases for *SignUp* on https://clickup.com.

- The *SignUp* method must only work using a valid email that will be confirmed later by a code sent by email.
- The password must contain at least one uppercase letter, one lowercase letter, one special character, one number and have at least 8 characters.
- The Play with *ClickUp* button becomes functional only after all 3 fields are complete.

Test Case 1:

The *Play with ClickUp* button becomes functional only after all three fields are completed.

Description:

The *Play with ClickUp* button becomes functional only after all 3 fields are completed with a valid email (containing @, domain), the password meets the required conditions, and the Full Name field is completed.

Steps to Reproduce:

1. Access the link https://clickup.com
2. Press the *Sign Up* button on the HomeScreen
3. Enter a valid email address and press *Get ClickUp*
4. Complete the *Full Name* field
5. Choose a password that meets the conditions
6. Check the *Terms of Services* checkbox
7. Press the *Play with ClickUp* button

Expected Results

A validation email has been sent and a field appears in which the code from the email must be entered.

Test Case 2:

If the password chosen by the user has less than 8 characters, an error is displayed.

Description:

If the password chosen by the user when registering on the https://clickup.com website has less than 8 characters, an error is displayed.

Steps to Reproduce:

1. Access the link https://clickup.com

2. Press the *Sign Up* button on the *HomeScreen*
3. Complete the *Full Name* field
4. Enter a valid email address on the *Email* field
5. Choose a password that has less than 8 characters
6. Press anywhere outside the password input area

Expected Results

An error message is displayed because the user chose a password with less than 8 characters.

Test Case 3:

Error message displayed when clicking on *Play with ClickUp* with the *Password* field not filled in.

Description:

When the user is on the *SignUp* page, leaves the password field blank, an error message will appear when the *Play with ClickUp* button is pressed.

Steps to reproduce:

1. Access the link *https://clickup.com*
2. Press the *Sign Up* button on the *HomeScreen*
3. Complete the *Full Name* field
4. Enter a valid email address in the *Email* field
5. Leave the *Choose Password* field blank
6. Check the box to accept *Service and Terms*

Expected Results:

An error message is displayed because the user left the *Choose Password* field blank.

Test Case 4:

Error message displayed when clicking on Play with *ClickUp* with the *Full Name* field not filled in.

Description:

When the user is on the *SignUp* page, leaves the *Full Name* field blank, an error message will appear when the *Play with ClickUp* button is pressed.

Steps to reproduce:

1. Access the link *https://clickup.com*
2. Press the *Sign Up* button on the *HomeScreen*
3. Leave the *Full Name* field blank
4. Enter a valid email address in the *Email* field

5. Enter a password that meets the conditions in the *Choose Password* field
6. Check the box to accept *Service and Terms*

Expected Results:

An error message is displayed because the user left the *Full Name* field blank.

Test Case 5:

Error message displayed when all fields are filled in correctly, but the *Terms of Services* check box is not selected.

Description:

When the user is on the *SignUp* page, completes the first two fields, but leaves the last one blank, an error message will appear.

Steps to reproduce:

1. Access the link *https://clickup.com*
2. *Press the Sign Up button on the HomeScreen*
3. Complete the *Full Name* field
4. Enter a valid email address in the *Email* field
5. Enter a password that meets the conditions in the *Choose Password* field
6. *Do not check the box to accept Services and Terms*

Expected Results:

An error message is displayed because the user has not check the *Services and Terms* check-box.

Test Case 6:

If the password chosen by the user does not contain an uppercase letter, an error is displayed.

Description:

If the password chosen by the user to register contains more than 8 characters, a special character, a number, but does not contain an uppercase letter, an error message is displayed.

Steps to reproduce:

1. Access the link *https://clickup.com*
2. *Press the Sign Up button on the HomeScreen*
3. Complete the field for *Full Name* with first and last name
4. Complete the *Email* field with a valid email address
5. Complete the *Password* field with a chosen password that contains more than 8 characters, all letters being written in lowercase letters

6. Click anywhere outside the form *Let's go!*

Expected Results:

An error message is displayed because the user chose a password that contains more than 8 characters, including a number and a special character, but does not contain a capital letter.

Test Case 7:

If the password chosen by the user does not contain a number, an error is displayed.

Description:

If the password used to register the user on the site has more than 8 characters, contains a capital letter, a special character, but does not contain a number, an error message will be displayed.

Steps to reproduce:

1. Access the link *https://clickup.com*
2. Press the *Sign Up* button on the *HomeScreen*
3. Complete the field for *Full Name* with first and last name
4. Complete the *Email* field with a valid email address
5. Enter in the *Choose Password* field a password that contains more than 8 characters, contains a capital letter, a special character, but not a number
6. Click anywhere outside the *Let's Go!*

Expected Results:

An error message will be displayed because the user chose a password that contains more than 8 characters, a capital letter, a special character, but not a number.
