BUG REPORT

BUG 1:

A valid account can be created by entering only digits in the *First Name.*

Environment*:* https://automationteststore.com

Steps to Reproduce:

1. Go to https://automationteststore.com
2. Click on the *Login or Register* button
3. Press the *Continue* button in the *I AM A NEW CUSTOMER* section
4. Enter only numbers for *First Name*
5. Complete all the fields on the registration page with valid data
6. Check the *Privacy Policy* checkbox
7. Click on *Continue*

Expected Result:

Error message: *Name cannot contain digits. You entered an invalid name.* is displayed.

Actual Result:

The account was created successfully without any error messages.
